**PRAISE FOR PORTALS IN A NORTHERN SKY**

“Reading *Portals* is like looking through a kaleidoscope in which breakneck adventure and science fiction occasionally reconfigure themselves into patterns of ancient wisdom—don’t start unless you have enough time to finish it, because you won’t be able to put it down.”

— Mihaly Csikszentmihalyi, Author of *Flow* and *The Evolving Self*

“Charles Hayes, one of the great existential pathfinders of the modern age, has produced a masterpiece, a work of genius, in the form of *Portals in a Northern Sky*. This fascinating and exquisitely crafted story unfolds against a sweeping landscape of nature, history, and culture, and is woven together into a magnificent tapestry of insight and wisdom. Hayes takes the reader on an unforgettable journey that unveils lost secrets about the art of creative and meaningful living. *Portals in a Northern Sky* is the ultimate thinking person’s novel, one that is certain to become a classic for future generations to enjoy and cherish. Absolutely essential reading.”

— John F. Schumaker, Author of *Wings of Illusion* and *The Age of Insanity*

“*Portals in a Northern Sky* is a delightfully different book, truly in a class by itself — among other things a science-fiction novel, a thriller, a meditation on fate, and a love letter to Alaska. Readable and rewarding on all counts.”

— Walter Truett Anderson, Author of *The Truth About the Truth and All Connected Now*

“*Portals in a Northern Sky* does not disappoint . . . I found myself transported backward and forward in time . . . in ways I always envisioned a time machine of the mind working—illuminating what was, what might have been, and what could be. Pick up this book and be prepared to have your mind enlarged.”

— Michael Shermer, Publisher *Skeptic* magazine, *Scientific American* columnist, and author of *Why People Believe Weird Things*
